Short report of the activity (please write a ready-to-publish news for the website)	Participation to the European Maritime days 2019		

	<p>DORY project have been invited to join the Joint exhibition stand of the “Knowledge of the sea network” facilitated by INTERACT that arranged within the stand informal meetings with other maritime stakeholders from the Interreg world and beyond.</p> <p>At the joint stand, the network provided an opportunity for the EMD participants to learn more about the possibilities Interreg provides for maritime cooperation and exchange vision and possible actions in view of the new programming period.</p> <p>These meetings took place during the networking breaks and provided the possibility for an exchange between maritime Interreg programmes and projects, but also with actors from beyond the Interreg community reaching out to e.g. Horizon 2020 and Fisheries Local Action Groups (FLAG). The invited guests were asked to write down a key message or question to the maritime Interreg programme community.</p> <p>DORY project has been included in the following section focused on Maritime Spatial planning: Thursday, 16 May, 11:00-11:30 Focus: Maritime spatial planning Guests: Nikos Lampropoulos (ESPON) and Sue Kidd (University of Liverpool), ESPON Maritime Spatial Planning – Land – Sea Interaction (MSP-LSI); Fabio Grati (National research Council, Italy) and Cristina Frittelloni (Agency for Agro-food Sector Services of the Marche Region, Italy), Italy-Croatia DORY project</p> <p>Key questions: 1. Sue: What are the key messages for the Interreg community from the MSP-LSI Are there any specific findings/recommendations for ‘MSP&Interreg’? What do you consider Interreg’s role in MSP? 2. Nikos: How (otherwise) can ESPON support maritime Interreg cooperation? How can Interreg programmes and projects benefit from your work? 3. Fabio/Cristina: What are the relevant MSP findings from your project and how to you ensure that they benefit not only the project partners?</p> <p>Two representatives of the Partnership attended the event: Cristina Frittelloni as technical assistance for Marche Region, Fisheries Economy Department and Fabio Grati from CNR-IRBIM.</p>
