DT1.6.1 LIST OF AGENTS OF CHANGE

INTRODUCTION

The above mentioned Deliverable DT1.6.1 is the result of the activity T1.6- IDENTIFICATION OF AGENTS OF CHANGE.

The List has been defined on the basis of a great cooperation at international level (among the entire partnership and different engaged actors: SMEs, Research Institutes, Business Support Organizations).

The “Agents of Change” represent the initial critical mass for the proper communication within the Adrion Area first of all, that something is evolving in the nautical sector: they represent the Ambassadors of the sectoral innovation purposed by the ECO-Nauti-NET project and they will cooperate for correct implementation of the other expected outcomes and deliverables.

At the end of the specific activity and after the realized intervention concerning the Training of Trainers (Facilitators and Regional Tutors), as well as the Brokers, a List of Agents of Changes (attached) has been defined, composed by a total number of 73 members, (n. 10 facilitators/each partner, except for P3 - UNIZAG, n. 1 tutors/ each partner, except for P3, 1 broker/ each partner).

The Agents of Change will promote to the prior targets groups all the tools and support services, aimed at innovating the nautical sectors. In fact, the Agents of Change will manage a training for SMEs (at least n. 23 per partner, n. 25 for the LP), at local level, combining the needs of innovation expressed by the involved targets and BATs (Best Available Technologies), provided by the Research Institutions after an ad hoc research phase foreseen in the project.

This phase will bring to the Eco-Nauti-NET ICT Platform, that will work (thank to the direct intervention of Agents of Change, especially the brokers), as a technological facilitator for the implementation of innovations in the nautical sector of the Adrion Area and for the creation of innovative clusters in the sector itself. The trained SMEs will be able to cooperate using all innovative provided tools for become potential knots of the under construction novel clusters/networks, boosting the innovation of products and services, with a specific attention to environmental sustainability.

LIST OF AGENTS OF CHANGE

List of Agents of Change - Total

PARTNER	NO. BROKER	NO.TUTOR	NO. FACILITATOR	TOTAL
