| APPENDIX II (List of participants) | 14 |

1. Aim of the deliverable

The aim of this deliverable was to take place two Open Days in the facilities of Research Institute of Animal Science (RIAS) in Giannitsa of ELGO-DIMITRA, taking into account that RIAS keeps the major purebred flock of Pelagonia sheep breed in Greece, under controlled conditions. The main scope of these events was stakeholders be informed of the productive characteristics of Pelagonia breed, its special features and the high quality of its products (milk and meat), as well as the best nutritional and breeding management and the best care practices.

2. Description of the events

Two open days with stakeholders had been arranged to be implemented in the facilities of Research Institute of Animal Science (RIAS) in Giannitsa of ELGO-DIMITRA.

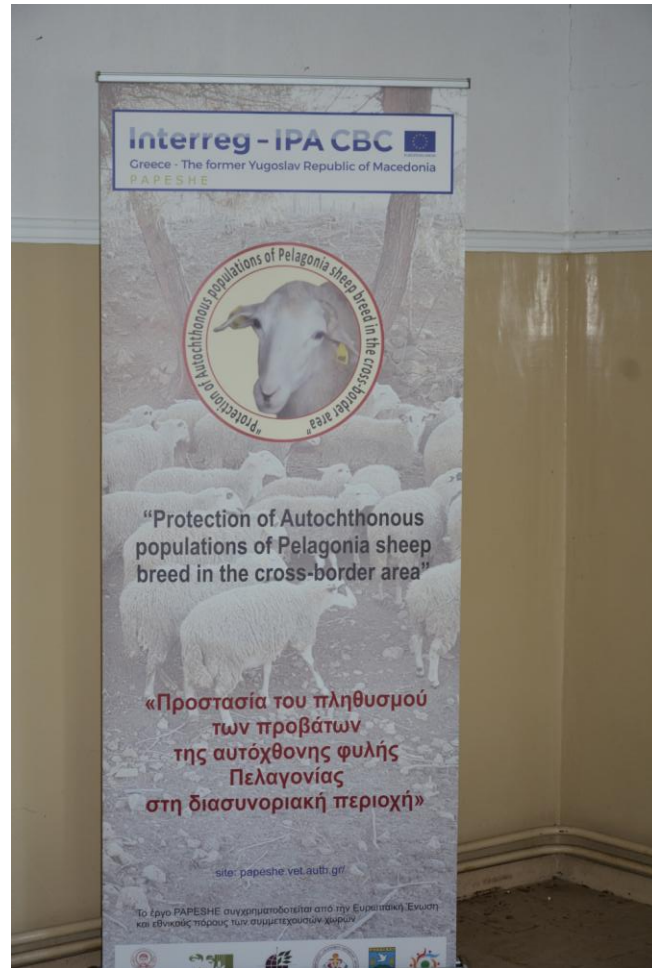

The first open day was took place at middle of October in RIAS, where stakeholders (farmers, and practitioners) Republic of North Macedonia and from Greece, as well as scientists from both countries, participated.

During the event the research activities of RIAS, the Pelagonia sheep breed, its characteristics and the management practises of the breed, were presented to the tenders.

It was followed visit to the experimental farms of Pelagonia sheep breed, where stakeholders and scientists had the opportunity to see *in situ* the Pelagonia sheep rearing system and discuss and exchange opinions and information on the management practices, concerning the nutritional programme according to the age and the productive stage of the animals, the available feedstuffs given to animals, the breeding programme that RIAS follows in order to improve the productive traits of the Pelagonia sheep and the daily care of the animal, so as to ensure animals health and welfare.

The second Open day had been schedule to held before the end of the programme, however due to COVID-19 pandemics and the strict prohibitions and restrictions, concerning transportations and gathering, it was not feasible, unfortunately, to organize such an event.

It follows a photo gallery of the event held in RIAS facilities.

APPENDIX I

OPEN DAY INVITATION

INVITATION

In the frame of the Interreg-IPA CBC Programme

Protection of Autochthonous population of Pelagonia Sheep breed in the cross-border area “PAPESHE”

The Research Institute of Animal Science (RIAS)

Invites you to an OPEN DAY

on 17 October 2019, at 11:00 am

in our experimental farm and have the opportunity to be
acquainted with the “Pelagonia” sheep breed and its
management practices.

Research Institute of Animal Science, HAO-Demeter

Paralimni-Giannitsa, Pella 58100, +3023820 31700,
